

Pack & Guard® Cohesive Products

PACK & GUARD® COHESIVE PRODUCTS

At Surface Guard we manufacture the most extensive line of cohesive packaging products in the industry, with our Pack & Guard® line. Pack & Guard® cohesive products are a pressure sensitive material used to create strong, secure and shippable packages. With Pack & Guard® cohesive products (also know as Cold Seal) you can create your packages simply by hand or with automated cold seal machinery for increased productivity and labor savings. SGI is the only manufacturer to offer Pack & Guard® cohesive corrugated, films, papers, linerboards and poly laminated papers, all made to fit your requirements.

Pack & Guard® Cohesive Single Face

- 50#, 70#, 100# paper weights available (other basis weights available on request)
